

I am writing on behalf of K-LOVE for the San Antonio, Texas region. K-LOVE provides uplifting Christian music for children, teens and adults. It is a family motivating and spritually positive music listening environment. As a Christian Counselor, I see many young people who benefit from the format used by K-LOVE. It would be a shame to displace K-LOVE with a LPFM broadcaster, which may not have the same ethical practices as K-LOVE. It is in the best public interest to maintain K-LOVE for the community, as there are so few commercial free, listener supported stations that provide such wonderful benefits. I live a good distance away from the transmitter for K-LOVE and was thrilled when the signal was boosted, so that I may hear it at home and during my daily drive to work or play. Please do not replace K-LOVE with an LPFM signal and preserve this wonderful station as it is. Thank you.
